

Climate Emergency Grants EOI 2024 \$5,000

Form Preview

Eligibility - Climate Emergency Grants 2024

* indicates a required field

Expression of Interest

Grants of \$5,000 are available. Applicants of all eligible Expressions of Interest received by Council will be invited to pitch their project.

To make the community voting process more accessible, this year we are introducing a new format for pitching and voting. There will be two parts:

1. Online voting – From Wednesday 22 May to Wednesday 29 May projects will be featured online and open for community members to vote for their favourite project.
2. In person Pitch Fest – On Wednesday 5 June the Pitch Fest will be held and applicants will be invited to give a 2-5 minute pitch outlining their project. This event will be open to the public and on completion of the pitches the community members present will vote for their favourite project.

Votes from the online voting and in person Pitch Fest will be counted and the top voted projects will be awarded the \$5,000 funding.

Please note some responses in this Expression of Interest form will be used to provide a project overview for the online voting component. We will notify you of these fields. If deemed eligible we will also allow you to review and add to this information before publishing it live for online voting.

Eligibility - Before you commence your application

Important, please confirm before proceeding:

- My project is taking place within the Surf Coast Shire
- I understand activities/projects must meet the criteria of the [Climate Emergency Grant Guidelines](#)
- I understand that I must demonstrate in this Expression of Interest and subsequent pitch, how this project will address climate change and increase community action
- I understand that if successful, Council will provide \$5,000 and will bear no responsibility for over spend of the project
- I will make sure my project is accessible and inclusive of people of all abilities, including physical access
- If my project is related to First Nations cultural heritage and/or Peoples, I understand that I will need to provide evidence of appropriate consultation with a Registered Aboriginal Party, Traditional Owner Consultant or Partnership with First Nations People.
- I understand that projects or programs involving children must comply with Child Safe Standards www.dhhs.vic.gov.au/publications/child-safe-standards
- I agree that if I am successful I will cooperate with Council officers in regards to any relevant risk assessments, permits and/or maintenance prior to funding being provided.
- I understand that if I am successful I will need to provide evidence of suitable insurance and a risk management plan to keep volunteers/participants safe. (Council Officers will help you with this should you be funded)
- I understand that should I be successful, I will be required to provide a report back to Council about my project. This will include things like the time and effort that volunteers

Tell us your idea

Project Details

What is the name of your project?

Project Overview (200 words max).

Word count:

This is your chance to provide a high-level summary and describe your project. You could include:

- What is your project idea?.

Climate Emergency Grants EOI 2024 \$5,000

Form Preview

- What do you intend to do and/or deliver with the funding?
- Whether your project intends to build resilience to a changing climate, reduce our local footprint or both.
- What outcomes you hope to see.
- Who your target audience is and/or who will benefit.
- Will you partner or work with anyone.
- Any additional information you want to share.

Your response to this question will be put online to provide a project overview for the online voting component. This is your chance to really sell your project in 200 words!

Climate Action

Does your project target?

- ☐ Reducing greenhouse gas emissions (mitigation)
- ☐ Building resilience and adapting to climate change impacts (adaptation)
- ☐ Both of the above (mitigation and adaptation)

Your response to this question may be put online to provide additional details for the online voting component.

If your project intends to reduce emissions explain 1) what emission source/s you will target e.g. electricity, transport, gas, agriculture etc. and 2) how you expect emissions will be reduced as a result of your project.

Word count:

Your response to this question may be put online to provide additional details for the online voting component.

If your project intends to build resilience and adapt to climate change impacts explain 1) What impact/s or vulnerabilities you will target (e.g. vulnerable location or demographic, an initiative to address the health impacts of climate change, planting climate resilient tree species etc. and 2) How you expect to build resilience and adaptive capacity as a result of your project.

Word count:

Your response to this question may be put online to provide additional details for the online voting component.

See our [Surf Coast Shire Community Emissions Profile](#) for more information on emission sources.

For guidance on climate change impacts and adaptation, click here for the [Barwon South West Climate Projections](#).

Increasing Community Action

Who is your target audience? (e.g. Who will your project encourage to take climate action during, and possibly after the deliver of your project?)

Word count:

List and describe all the activities and costs in this project

Describe your project/activities	Anticipated Expenditure \$
500 words	
	\$
	\$

Outcomes

Please list the intended outcomes of the project.

Word count:

You could include:

- What will happen as a result of this project.
- How many activities or deliverables you aim to complete.
- How the community will benefit e.g. upskilling or learning opportunities, behaviour change etc.
- How this project will contribute to climate action in the Surf Coast Shire e.g. reducing emissions, building resilience and adaptive capacity
- How this project will contribute to the local climate movement

Your response to this question may be put online to provide additional details for the online voting component.

Measuring project outcomes

When developing outcomes for your project it is also a good opportunity to think about how you will measure your projects impact, including what type of information you will collect and how. How do you intend to capture the outcomes of your project, and the greater impact it will have on the community and environment in the Surf Coast Shire?

Please attach quotes for activities/equipment
